

Stress fluctuations along the fault | $E = 51.0\text{GPa}$ | $\nu = 0.25$ | $C_f = 2404\text{m/s}$, $C_s = 2760\text{m/s}$, $C_d = 4790\text{m/s}$

Normal stress fluctuation (σ_{xx})

Shear stress fluctuation (σ_{xy})
